

Yogumix Frozen Yogurt Machine Competitive Advantages

ROYAL

Ice Technologies

- ❖ The preparation cup (tank) is made of PP, which is **an excellent insulator** and keeps the low temperature of the dose during preparation

- ❖ **The most powerful blade in the market** can easily crush ice and all frozen fruits !
- ❖ **Fastest blade rotating speed in the market** enables preparing high quality shakes
- ❖ Safety sensor deactivates the machine when preparation cup's protective cover is not closed

- ❖ A unique stainless still nozzle enables:
 - ❖ Production of **star shape** soft ice cream/ frozen yogurt
 - ❖ Production of **pasta shape** soft ice cream/ frozen yogurt
- ❖ **A hermetic closure mechanism** of the preparation cup (tank) – **strongest and most reliable in the market**

Operating the machine easily with one hand! Control buttons on the operating handle

- ❖ A quick wash button enabling sanitation of the machine in between doses, while keeping each dose clean
- ❖ An automatic lock button, keeping the machine working without supervision

- ❖ Interchanging inner led lighting system
 - ❖ Red lighting: the machine is in locked position
 - ❖ Blue lighting: the machine is in manual position
